TOTAL CONTROL

All LED Lighting System with Hazard Lamp

The aggressive front design, combined with the LED Combination Light, makes you stand out with character. Serves to give a sign to other drivers if they are in a dangerous situation.

Powerful Engine with Higher Power

The engine is more powerful due to the increased compression ratio due to changes in the cylinder head.

Big Bike Appearance

The fairing is bigger so it looks like a big motorbike.

Inverted Front Suspension SFF-BP

Front suspension with large pistons that provide comfort and stability in maneuvering in every corner.

Quick Shifter

Gives effect when shifting gears up or down without pulling the clutch lever and lowering the gas when maneuvering to get maximum acceleration.

Assist / Slipper Clutch

Technology that provides comfort with a lighter clutch lever pull and reduces engine brake impact which can cause the risk of slipping when decelerating, especially during wet road conditions.

All specifications are provisional and subject to change without notice.

- Please note that the figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors.

- Colours and photos may vary from the actual product. These models come with a 2 year or 20,000km manufacturing warranty (whichever comes first).
